"Grooming the next generation of Caribbean science and engineering leaders"

Dear Parent/Guardian,

In the summer of 2017, the Caribbean Science Foundation plans to host a Level IIA version of the **Barbados Junior Robotics Camp (BJRC)**. The Level IIA camp will run from 11 July to 4 August 2017, and it will be held in a physics laboratory on the UWI, Cave Hill campus.

The Level IIA camp is open only to children who participated a previous BJRC Level II camp, and are less than 15 years of age by July 1, 2017

The Level IIA camp will focus on more complex autonomous robots than the Level II camp. The goal would be to have the Level II campers design and build robots which can run a very sophisticated obstacle course autonomously (without human intervention).

The completed application form (page 2) may be submitted as an attachment by e-mail, or by post to:

If your application is sent by email please use "BJRC Level 2A Application [Child's name]" on the subject line of the e-mail.

The application deadline is **11:59 pm on June 1 2017**. Late applications may not be accepted. **Please note that Level IIA applicants must also fill out the online survey of their Level II camp experience for their applications to be considered.** If you have previously filled out and submitted the survey, we thank you!

If your child is admitted to the camp, a camp fee of BD\$ 400 must be paid before the first day of the camp.

Thank you for your interest, and we look forward to an exciting and productive 2017 Level IIA Junior Robotics Camp!

Respectfully Yours,

Robotics Planning Committee
